Sign Up For VPS

Sign Up For VPS

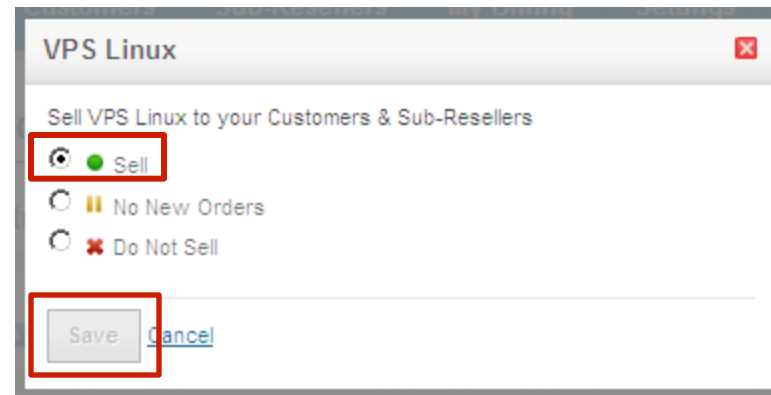

The screenshot shows a vertical sidebar menu with two tabs at the top: 'Settings' and 'Tools'. The 'Settings' tab is selected and highlighted with a red box. Below it, the 'Manage Products and Pricing' option is also highlighted with a red box. Other menu items include 'Branding Settings', 'Personal Information', 'Change Password', 'Change Personal Identification Number (PIN)', 'Finance & Billing', 'Products', 'Other Branding Settings', and 'Sub-Reseller Signup'.

The screenshot shows the 'Manage Products and Pricing' interface. At the top right, it says 'Automatic Signup for New Products: Enabled [Disable](#)'. Below this is a list of products:

Product Name	Status
Domain Registration	Selling Change
VPS Linux BETA	Selling Change
Reseller Windows Hosting (with Plesk) NEW!	Selling Change
Reseller Linux Hosting (with WHM)	Selling Change
Multi Domain Windows Hosting (single Plesk Account)	Selling Change

The screenshot shows a dialog box titled 'VPS Linux'. It contains the text 'Sell VPS Linux to your Customers & Sub-Resellers' and three radio button options:

- Sell
- No New Orders
- Do Not Sell

At the bottom of the dialog, there are 'Save' and 'Cancel' buttons. The 'Sell' radio button and the 'Save' button are highlighted with red boxes.

Add Slabs & Set Telescopic Pricing

Sub-Reseller Pricing - VPS 2 [Manage Sub-Reseller Pricing](#)

Pricing		Add	Renew
Your Cost Price (Inclusive of 10.3% Tax)		INR 1,543.10 / month	INR 1,543.10 / month
1 Months	Selling Price INR	Per Month <input type="text" value="1551.0"/> 1 Months 1551	Per Month <input type="text" value="1551.0"/> 1 Months 1551

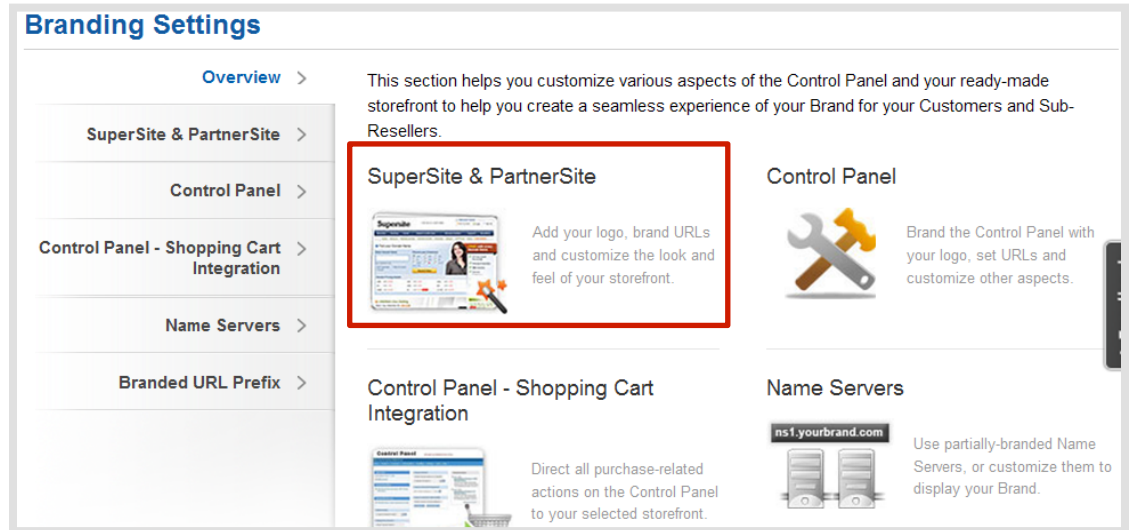

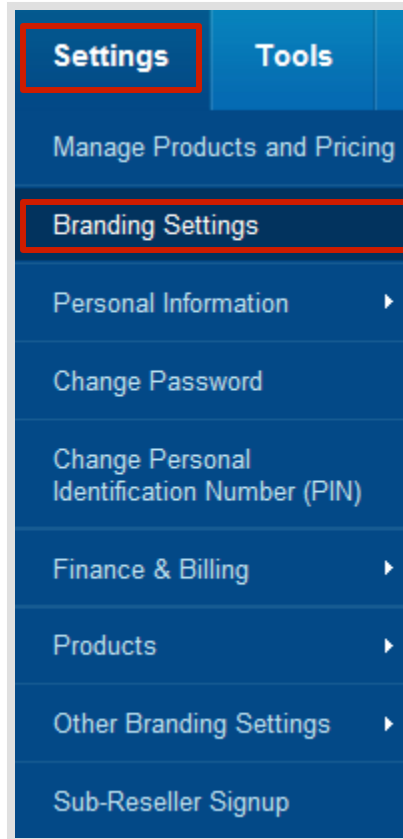

Add Slab

Give discounts to customers who buy for longer tenures.

Example: When your customer purchases for 1 month, he will be charged Rs. 1551/m, but if he purchases for 3 months or

more, you can give him a discount by charging him less. However, if you do not wish to use Telescopic Pricing for your Customers, you may set the same Selling price as the 1st month for all other months

Display It On Your Supersite

Display It On Your Supersite

Important Note: VPS beta will only be available on SuperSite 2 .If you have not yet moved to the SuperSite2; you can Use your SuperSite2 partially branded URL to make a purchase

Execute Without Payment

You can choose to execute the above set of Requests without receiving payment for the same. You have the following two options.

- Execute the request(s), but **keep the Invoice(s)** as it is. That way your Customer can pay for these Invoice(s) later.
- Execute the request(s), but **cancel the Invoice(s)**. That way your Customer will not have to Pay for these Invoice(s) at all. The associated action(s) will be executed and invoice(s) will be reversed by raising appropriate Credit Note(s).

IMP Note: Clicking on the above link will execute all associated actions instantly. There may be no way to reverse these executed actions.

[Execute the above Requests without receiving a Payment](#)

Manage Your Hosting Package

Manage Your Hosting Package

The screenshot shows a navigation bar with the following items: Home (highlighted with a red box), Products, Customers, Sub-Resellers, My Billing, Settings, Tools, and Help. Below the navigation bar is a search bar containing the text "testvps.com" (also highlighted with a red box) and a "Search" button. A dropdown menu is open from the search bar, listing "Order" (highlighted with a red box), "Customer", and "Reseller". Below the search bar, there are two main sections: "Funds Summary" with a money bag icon and "Manage O" with a document icon.

The screenshot shows a management page for a "VPS Linux" package. The package name "VPS Linux" is followed by a "More" link and "VPS 4". The current date is "September 5, 2012" and the next renewal date is "October 5, 2012", with a "Renew" button. The page is divided into three main sections: "Admin Details" (View the URLs used to access various services associated with your VPS package), "Dedicated IPs" (Purchase and manage Dedicated IPs, required to purchase SSL Certificates), and "Manage Add-ons" (Purchase and Manage Add-ons that are available with your VPS Linux Package). There is also a "Upgrade your VPS Linux Package" section with a "See Plans & Pricing" button. At the bottom, there are three action buttons: "Suspend", "Add Invoice", and "Delete Order".

Manage Your Hosting Package

Access Virtuozzo

Admin Details

Virtuozzo Power Panel (VZ)
You can access your Container using VZ as follows:

Uri: <https://208.91.198.32:4643/vz/cp>
Username: root

Virtuozzo Power Panel (VZ)
VZ is the Container Management software that allows you to access and manage your VPS Linux Package.

Login Details
You can change the credentials for your control panels from their respective interfaces.

Manage Add-ons

Manage Add-ons

Available Add-ons

Select Add-on

Add-on
Your VPS Package supports several Add-ons that add features and functionality to your package.

Dedicated IPs

IP Address	Action
208.91.198.32	<input type="button" value="Add Dedicated IP"/>

A Dedicated IP can be used for a variety of functions, such as to add an SSL certificate to your website or to assign an IP to your Nameserver(s).

That's It!

You are now all set to
kick-start your **web hosting**
business
